INDEPENDENT OIL MEN MEET PROMINENT MEXICAN YOUTHS SLAIN

COLLEGE STUDENTS
EN ROUTE HOME ARE
KILLED IN OKLAHOMA

RELATIVES OF PRESIDENT
RUBIO OF MEXICO VICTIMS
ARDMORE SHOOTING

ARDMORE, Okla., June 8.—(P)—Two Mexican students, one a cousin of President Ortiz Rubio of Mexico, were slain here early today by a deputy sheriff as the youths were driving home from their year's study in the United States.

The victims were Emilio Cortes Rubio, 20, the President's cousin, and Manuel Gomez, 22, son of a prominent Mexican family.

A companion, Salvador Cortes Rubio, 24, another cousin of the Mexican President, was not injured.

Deputy Sheriff Bill Guess shot and killed the two youths after they had stopped their car on a highway. Guess and Deputy Sheriff Cecil Crosby said the boys drew guns when they approached and that Guess fired when weapons were pointed at him.

Salvador Cortes Rubio said the youths had been followed by another car on their drive southward through Oklahoma and had feared a holdup.

Crosby declared he and Guess informed the youths at once that they were officers. No shots were fired by the students and Crosby said the youths had not shot.

Salvador Cortes Rubio explained he and his companions carried an assortment of guns which they intended to take home as the weapons could be purchased more cheaply in the United States. They also had protection from bandits in mind, he said. The shooting occurred, he said, after he had walked away from the car.

The youths left St. Benedict's College at Atchison, Kans., early

CONFERENCE OVER
PROBLEMS BRITAIN
AND GERMANY HELD

BELIEVED ENTIRE REPARA-
TIONS PAYMENTS MATTER
WILL BE RE-OPENED

LONDON, June 8.—(P)—The possibility of a world conference to reope completely the problem of war reparations loomed today in the wake of the week end conference between the heads of the British and German governments.

London newspapers said the British Secretary of State Henry L. Stimson and Andrew W. Mellon, secretary of the treasury, with a promise made at the conference to collaborate with other governments.

A spokesman for the conversations at Chequers, country home of Prime Minister MacDonald, said the world field of economic and political troubles was discussed.

(Continued From Page 2)

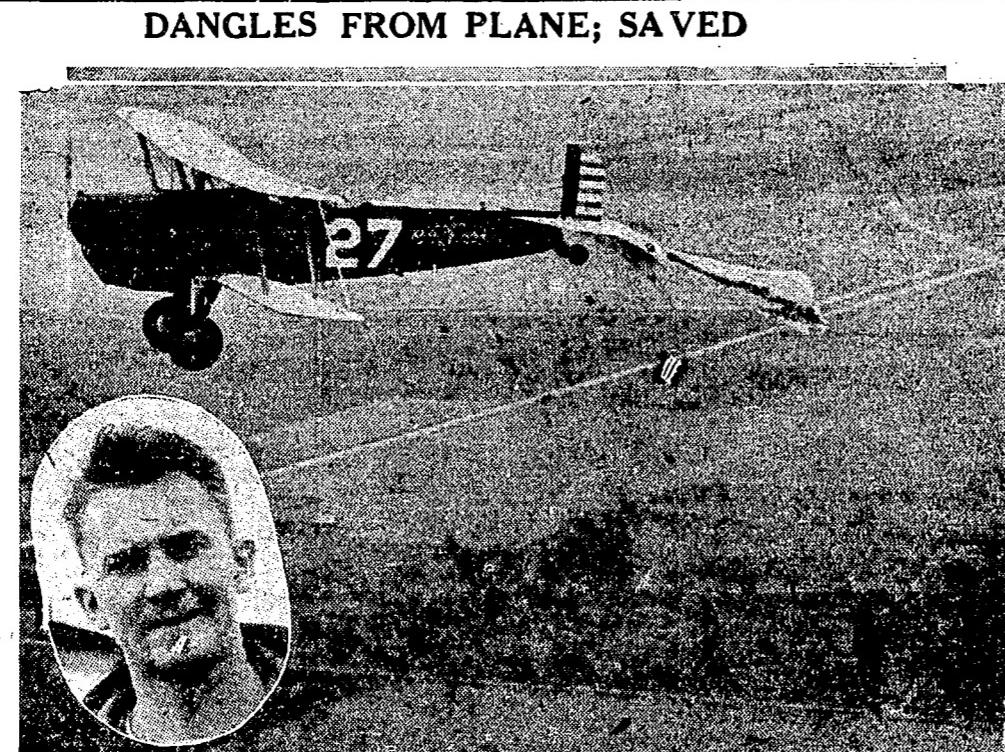

Farmer Girls
Drowned While
Wading Sunday

MONROE, La., June 8.—(P)—Two girls, daughters of neighboring farmers, were drowned yesterday when they waded into deep water while bathing in the Boeuf river near their homes. They were Goya Eubanks, 26, and Mae Slack, 16.

Melvin Eubanks, 6, brother of one of the victims, told his father he thought the girls were attempting to scare him. After a while he returned and reported the drownings. His father went to the scene and determined the girls were drowning before the alarm was given.

More than a dozen youth of the neighborhood dived and recovered the Eubanks girl's body and the Slack girl's body was recovered by searchers using a trout line. It was believed both girls drowned through the efforts of one to save the other.

Youth Falls Into Creek.
HOUATON, June 8.—(P)—Jack Edward Trimble, 15, was drowned in Cypress Creek, near Houston, yesterday. He had told his companion, Alvin Myers, 10, that he would try to swim the widest part of the stream and was exhausted before he reached the other side. He is survived by his parents, Mr. and Mrs. Charles J. Trimble of Spring, three sisters, and a brother.

DANGLES FROM PLANE; SAVED

For forty-five minutes Private Harold L. Osborne of Chanute Field, Rantoul, Ill., dangled from the tail of his plane helplessly in the lines of his parachute. He was one of several who took part in parachute maneuvers. He failed to leap at a given signal but pulled his parachute rip-cord and the chute pulled him from his seat and he became entangled in the tail of the plane. Later a knife was passed to him by another plane. He then cut himself loose from the first chute, pulled the cord of the second parachute and gently floated to earth, patting it and calling it "Dear old earth."

SERVANT ADMITS
KILLING DOCTOR TO
SECURE MONEY

FILIPINO HAD BEEN DIS-
CHARGED BY NEW YORK
SPECIALIST

NEW YORK, June 8.—(P)—Gavino Demler, Filipino servant, was arrested today and confessed, police said, that he killed Dr. George Edward Deely to get money for his "girl friend." Dr. Deely, a widely known specialist, was found stabbed and beaten to death in his home last Tuesday.

Demler was discharged by the physician five days before the killing. He said that after the killing he went to Philadelphia, where he stayed until today.

Police said they had traced Demler to Philadelphia a few days after the killing, but wishing to avoid extradition delays, shadowed him until he returned to New York today. He was then arrested.

Police believed the doctor was killed with a knife and his skull fractured by being pounded against a floor. At first Deely's death was believed to be the motive for the crime, but later detectives said they learned a sum of money had happened.

PRESIDENT SPENT
SUNDAY NIGHT AT
HIS RAPIDAN CAMP

WASHINGTON, June 8.—(P)—President Hoover returned to the white house today from his Rapidan camp in Virginia. Mrs. Hoover and her son, Allan, were to return later in the day.

ORANGE, Va., June 8.—(P)—President Hoover prolonged his stay at his Rapidan camp until yesterday to obtain as much rest as possible before resuming the arduous work of writing three speeches to be delivered a week hence.

By remaining over Sunday night, the chief executive avoided a drive to Washington through a heavy rain storm that caused mishaps to many motorists.

Over the weekend, he was advised by Secretary Adams the navy department would be able to save about \$25,000,000 out of the annual appropriations for this and the next fiscal year.

Abandonment of the island of Guam in the Pacific as a naval station was suggested to Mr. Hoover by the naval officials.

They said the island had no military value under present naval defense plans. Withdrawal of all forces, except those needed by the civil government, was recommended as an economy measure for next year.

The conference with naval officials was the fifth held with department heads in the chief executive's government camp.

More Money in
Circulation Is
May Statement

WASHINGTON, June 8.—(P)—The treasury reported today that per capita circulation of money increased 35 cents in May over April.

Money circulated last month was \$4,702,283,712. This was equal to \$37.66 per person as against \$37.31 the previous month.

Residents in the neighborhood said they heard several shots at about 10:30 p. m. last night when the double killing was believed to have occurred. There was no witness, so far as known.

Manuel had a son, Volney Manuel, 24, employed by a film exchange in Dallas.

DANGLES FROM PLANE; SAVED

SIX KILLED WHEN
TRUCK-AUTO CRASH
ON BELLEVUE ROAD

FIVE ARE KILLED INSTANT-
LY; OCCURRED NEAR
BRIDGE OVER CREEK

WICHITA FALLS, June 8.—(P)—Five men and a 14-year-old boy were dead today as the result of a collision yesterday between an automobile and a freight truck at a bridge over Smith Creek, four miles west of Bellevue.

The dead:

SAM McNEW, 23, bakery employee.

BILL ORMAN, 23, garageman.

M. MITCHELL, 55, grocer, at of Wichita Falls.

MURPHY DESHONG, 17, Amarillo, son of Mr. and Mrs. Pete Deshong.

V. J. NOTLEY, 28, Dallas, substitute driver of the truck.

CONRADAS JOHNSTON, 14, Vernon, son of Mrs. Isaac Lawler.

Apparently all but Orman were killed instantly. He died of a skull fracture a few hours later.

Young Johnston had arranged with Notley to ride to Fort Worth where he planned to visit his grandparents. Notley had been engaged as substitute driver for the one trip. Deshong was on his way to Decatur for a truck which he intended to drive back to Amarillo. His parents operate a truck line.

Dallas Child Killed.

GREENVILLE, June 8.—(P)—Annie Mae Williamson, 3, was killed instantly and her mother and five other persons, all of Dallas, were injured early today when the automobile in which they were riding plunged from the highway down an embankment and overturned.

The injured were: Mrs. Carter Williamson, mother of the child killed; Mrs. W. O. Williamson, 49; Doran Parrish, 9; Mrs. Nora True; R. S. True, 10; and Carl Williamson, 8 months.

As related by the Parrish boy, the accident occurred when the car suddenly went out of control and left the highway, plunging down an embankment and turning over several times.

Miss Williamson suffered

bruises about the body and face; the Parrish boy's left foot was almost severed. Mrs. True, cut and bruised; her son, severe bruises; and the Williamson baby, slightly bruised.

Known as "Cowboy Bill," to the voters and a popular in Oklahoma politics for many years, Mr. Alexander was in Corsicana visiting W. T. Parker, old time friend of early Oklahoma days. At one time Mr. Alexander owned the Daily Oklahoman, which later he sold to Mr. Parker. At that time the paper was only a small publication and both men now regret that the control of such a great daily was allowed to pass to other hands.

This prediction is made in all serious cases you will see that all is right," Mr. Alexander said.

Known as "Cowboy Bill," to the voters and a popular in Oklahoma politics for many years, Mr. Alexander was in Corsicana visiting W. T. Parker, old time friend of early Oklahoma days. At one time Mr. Alexander owned the Daily Oklahoman, which later he sold to Mr. Parker. At that time the paper was only a small publication and both men now regret that the control of such a great daily was allowed to pass to other hands.

Up until a few months ago Mr. Alexander was superintendent of the State Institution for Feeble-minded, located at Enid, Okla.

There are over 800 inmates in the institution and the property and improvements are valued at more than \$1,500,000. Under Mr. Alexander the institution has been modernized and is going about her daily duties as if nothing had happened.

(Continued on Page 2)

COLLEGE STUDENTS EN-ROUTE HOME ARE KILLED IN OKLAHOMA

(Continued From Page 1) yesterday, after attending mass at the church there, to drive to Mexico.

Fernando and Guillermo Ortiz Rubio, sons of the Mexican President and students at St. Benedict's departed at the same time but did not accompany the others.

Pending an inquiry by County Attorney Marvin Schilling, no action was taken against the officers. Deputy Sheriff Guess shot and killed Pat O'Day at Estilline, Tex., last January. O'Day was sought for a slaying.

Guess said this afternoon he desired complete investigation and prosecution of the case, if necessary, and expressed confidence he would be vindicated. Action, however, awaited the arrival of Mexican consulate attaches from Oklahoma City.

Deputy Guess said he first fired when he saw a gun protruding from a blanket which the first youth to emerge from the automobile wore.

ARDMORE, June 8.—(P)—Emilio Cortes Rubio, 18, and Manuel Gomez, 22, were shot to death on a residential street here early today by Deputy Sheriff Bill Guess.

Salvador Cortes Rubio, 24, a companion of the youths, said he and Emilio were cousins and were related to President Ortiz Rubio of Mexico.

Guess and Deputy Sheriff Cecil Crosby said they came upon the youths at a parked motor car and began questioning Salvador Cortes Rubio, who was standing beside the car. Then they said, the other two youths, armed with revolver, started to leave the car.

The third youth was not wounded. He was unarmed, officers said. He told authorities the three had purchased weapons and ammunition in the United States and were taking them to Mexico City because firearms are more expensive there.

A county attorney's investigation was started and Salvador Cortes Rubio was detained as a material witness.

Officers said they found an automatic shotgun and thirty rounds of ammunition in the car. Salvador Cortes Rubio, who said his father was a Mexico City attorney, talked to Mexico City on long distance telephone this morning.

He said he and Gomez attended St. Benedict's college at Atchison, Kas., and that Emilio had been a sophomore at the Rolla, Mo., school of mines.

Deputy Sheriff Guess, last January, at Estilline, Texas, shot to death Pat O'Day, alias Elbert Hart, sought for the slaying of Buddy Moorehead, Ardmore police officer.

No action had been taken against either officer today pending a report of the investigation.

Said youths informed.

Deputy Sheriff Crosby said the Associated Press today he and Guess informed the youths at once that they were officers and that "they read every word on my gold star before anything happened."

He looked down, he said, and saw that one of the youths who had emerged from the car had an automatic.

"I wrestled with him," said Crosby, "and disarmed him." Then Guess came around the end of the car and the other boy drew on him. He shot him. I turned to the third boy who was standing by the radiator of the car when he came up and when I turned back, the boy I had disarmed drew a pistol handled revolver from his pocket. Guess fired and shot him.

Bob Did Not Shoot.

Crosby said neither he nor the boys did any shooting. Guess could not be reached immediately for a direct statement but was quoted as saying he decided to take no chances when he saw the display of arms.

Marvin Schilling, county attorney, was taking a statement from the surviving youth this forenoon. "We first said we were officers and the law and asked them what they were doing," said Crosby. "They looked at my star, and said they were returning home from college. I looked down and saw the one gun and said, 'are you going to college with that gun?' Then I disarmed him."

The shooting, Crosby said, occurred beside a main highway, U. S. 77.

Salvador Rubio was released to Dr. R. C. Conine, a dentist and former resident of Mexico.

He denied he had possessed a weapon, although he said there were some in the motor car. No weapon was found in his possession.

He was unable, he said, to tell details of the actual shooting because he was a short distance away from the others when it occurred.

Youth Student In Atchison College

ATCHISON, June 8.—(P)—Emilio Cortes Rubio, 24, cousin of President Ortiz Rubio, of Mexico, who with another Mexican student Manuel Gomez, 22, was killed at Ardmore, Okla., early today left Atchison yesterday to drive to Mexico City.

Fernando Ortiz Rubio and Guillermo Ortiz Rubio, sons of the president, had started a motor trip to New York, where they expected to meet their mother.

Salvador Cortes Rubio, 24, another cousin of the president, who was a companion of the two boys slain, telephoned authorities of St. Benedict's college here that they had mistaken the Oklahoma officers for bandits.

Salvador was the first of the distinguished Mexican family to enter St. Benedict's College. He matriculated in preparatory school eight years ago and was graduated from a chemical engineering course a few days ago. A few years later he was joined here by his cousin, Emilio, who withdrew two years ago to attend the Missouri School of Mines at Rolla.

President's Sons Enter College.

Guillermo and Fernando Ortiz Rubio, sons of the president of Mexico, arrived at St. Benedict's last fall a month after school opened. They became residents of the rooming house above their cousin, Salvador.

Salvador, known at the school as "Mike," immediately became their mentor in the ways of the American college life and attended numerous entertainments here, in Kansas City, and elsewhere in honor of his distinguished cousin.

The president's secretary said he had not heard from the boys and

WORK ON HIGHWAYS THROUGH NAVARRO COUNTY PROGRESS

HARD SURFACE ROAD FROM
CORSICANA TO HOUSTON
TO BE AVAILABLE SOON

Work on National Highway 75 through Texas is rapidly closing the gaps in the present system, and from present indications, an all-weather road will be completed except a small stretch from Ennis to Dallas during the present year in the event that contracts are awarded from Corsicana northward to Ennis this month by State highway commission as is contemplated.

The McElwraith Construction company has finished the pavement from the Madison county line to Leona, and the road has been completed from 4.4 miles south of Centerville to the Madison county line.

Earl Yates, contractor, has a contract from Centerville to Buffalo, a distance of approximately seventeen miles, and is expected to finish the pavement during September.

The McElwraith company is reported back on four miles having the pavement poured in Freestone county to Fairfield, and should be finished this month. With the completion of the above-mentioned projects not later than September, a hard-surfaced highway will be opened from Corsicana to Houston. The McElwraith company is starting a third paving outfit out of Buffalo and is expected to finish all Freestone county work during the month of August.

Work in Ellis County.

Grading and drainage structures are being constructed from Ennis to the Dallas county line at the present time under three contractors, and satisfactory progress is being reported. No definite time is anticipated when paving contracts may be awarded on this road.

It is understood that the Burlington and Rock Island railroad company is getting bids on an underpass on Highway 75 in Corsicana and the dirt and drainage structures two miles north and two miles south of Corsicana have been practically finished.

Contract for the awarding of the concrete pavement of approximately 20 miles in Navarro county is anticipated at this month's session of the Texas State highway commission, June 22.

Highway 22 Ready.

The pavement of the 9.55 miles on Highway 22, from the Three-Way Filling Station to the southeastern boundary of Consolidated road district No. 1, southeast of Eureka, is expected to be awarded. State and resident engineer and county officials inspected a number of projects in Navarro county recently, and declared the Eureka dump was in excellent condition.

Contract is also anticipated on Highway 14, National highway 75, from a point 3.35 miles north of Corsicana to the Ellis county line, a distance of approximately nine and one-half miles, in Consolidated road district No. 1, and the Rice district, and approximately seven and one-half miles from the Navarro-Ellis county line to Ennis, for pavement. The dump and drainage structures on this road were completed a number of months ago.

Richland-Wortham Stretch.

Nothing has been learned when the contract for the pavement of Highway 14, from Richland to the Limestone-Freestone county line south of Wortham, is anticipated. This dump and drainage structures has been completed for some time.

The Navarro county commissioners court has advertised for bids for construction of the Corsicana Ward Bridge road from Corsicana to the 9-foot concrete slab in the Pursley district, to be opened July 1. This road will be an 18-foot affair. Contract has already been awarded for the dirt and drainage structures although actual work has not started. The contract for the dirt and drainage structures on the tie-in from the Corsicana Embouse road to Highway 75 northeast of Corsicana, has been awarded and bids for the 18-foot pavement will be opened July 1. County and Southern Pacific Lines officials will confer and agree on an over-pass on this road in the near future. A tentative contract for the over-pass has already been let.

Surveys Toward Hillshire.

Surveys have been made on Highway 22 northwestward, but no definite time has been set for the beginning of the construction of that highway from a point near the two homes on the line of Consolidated road district No. 1 near Pinkston. With the completion of the above-mentioned section of Highway 22 and the tie-in on the Corsicana-Embouse road and the Ward Bridge sector, the program in Consolidated road district No. 1 will be completed.

The commissioners court has advertised the unsold bonds for sale on June 13. There are \$600,000 unsold bonds in Consolidated road district No. 1.

What the final result of the road district No. 2 bonds will be is a matter of conjecture. The commissioners recently advertised the \$120,000 bonds in that district but no bids were received. The district has been involved in litigation.

First Carload of Oats Reach Market Ft. Worth Friday

FORT WORTH, June 5.—(P)—The first car of oats of the 1931 crop reached the market here today from winter and graded No. 1 red, testing 35 pounds to the bushel with a moisture content of 4.2 per cent.

Reports from Winters showed a large acreage of these oats averaging 60 bushels to the acre there. The first car sold f. o. b. car at Winters for 19 cents per bushel, the farmers receiving 18 cents for the grain.

To LOAD MUCH OIL.

CORPUS CHRISTI, June 6.—(P)—Four tankers will lift the largest single day's shipment of crude oil from Port Aransas tomorrow. The tankers will load out more than 500,000 barrels. Among the tankers will be the S. S. John D. Archibald, largest of the Standard Oil fleet, with a capacity of 155,000 barrels.

Three Hi School Students Killed In Car Accident

BAKERSFIELD, Cal., June 5.—(P)—Three Bakersfield high school students were killed and four others seriously injured, as their automobile overturned on a grade after a picnic last night.

The dead: Lynn Myers, Clark Swink and Hester Price. Those injured: Donald Summerville, driver; Suba Dennison, Dorothy

Edgar Hale.

MRS. ELLA CURTIS BE BURIED FRIDAY AFTERNOON AT 5:30

Mrs. Ella Curtis, aged 89 years native of Virginia, but resident of this community for the greater part of her life, died at the home of her daughter, Mrs. Mary C. Cannon, 115 1/2 North Fourteenth Street, Thursday night at 11 p.m.

Her funeral services will be conducted from St. John's Episcopal church Friday afternoon at 5:30 o'clock with interment in Oakwood cemetery. The funeral services will be conducted by Rev. H. J. Ellis.

Surviving are four daughters, Mrs. W. H. Nicol, Mrs. Cannon and Mrs. J. M. Gordon, all of Dallas; one son, Wilmet Curtis, Corsicana, and a number of grandchildren and other relatives.

Active pallbearers will be the following grandsons: H. C. Nicol, R. M. Nicol, Edwin Gordon, Thomas Curtis, Wilmet Curtis, Frank Lemon, Clifford Castles, Hampton, Jack Gordon, Hampton, Roy Curtis, Palmer and James Gordon.

Honorary pallbearers will be Dr. Leslie Kelton, Dr. Leslie Kelton, Ivan Rosenburg, Alyn Gordon, A. G. Elliott, R. D. Fleming, Charles Jester, G. L. Cox, H. E. Metcalf, L. E. McCormick, Beauford Lester and friends of the family.

The funeral will be directed by the Sutherland Funeral Home.

FUNERAL SERVICES FRIDAY AFTERNOON FOR MRS. CURTIS

Funeral services for Mrs. Ella Curtis, 89, native of Virginia, but pioneer resident of Corsicana who died Thursday night at 11 o'clock, were held from St. John's Episcopal church Friday afternoon at 5:30, with interment in Oakwood cemetery. The services were conducted by Rev. H. J. Ellis, rector of the church.

Surviving are four daughters, Mrs. W. H. Nicol, Mrs. Mary C. Cannon and Mrs. J. M. Gordon, all of Corsicana; and Mrs. Page Palmer, Dallas; one son, Wilmet Curtis, Corsicana, and a number of grandchildren and other relatives.

Active pallbearers were the following grandsons:

H. C. Nicol, R. M. Nicol, Edwin Gordon, Thomas Curtis, Wilmet Curtis, Frank Lemon, Clifford Castles, Hampton, Jack Gordon, Hampton, Roy Curtis, Palmer and James Gordon.

Honorary pallbearers were Dr. Leslie Kelton, Dr. Leslie Kelton, Ivan Rosenburg, Alyn Gordon, A. G. Elliott, R. D. Fleming, Charles Jester, G. L. Cox, H. E. Metcalf, L. E. McCormick, Beauford Lester and friends of the family.

The funeral will be directed by the Sutherland Funeral Home.

MASONIC BODIES ELECTED OFFICERS FRIDAY EVENING

At a stated convocation of Corsicana chapter, No. 41, Royal Arch Masons, held Friday evening, June 5, the following officers were elected for the ensuing capital Masonic year:

A. M. Blackburn, H. P.; Carl Peterson, K. John C. Cook, S. Joe Sands, Treas.; E. R. Glover, Secretary.

At a called assembly of Corsicana Council, No. 32, Royal and Select Masters held June 5, the following officers were elected for the ensuing Cryptic Masonic year:

A. M. Blackburn, T. M.; C. T. Baedeker, R. D. M.; N. F. Patterson, I. P. C. of W.; Joe Sands, Treas.; E. R. Glover, Recorder.

PRISON SYSTEM IN EXCELLENT CONDITION NOW

Lee Simmons, general superintendent of the prison system of Texas, stopped long enough in Corsicana today to say hello to a number of his friends. Mr. Simmons was en route from Fort Worth to Huntsville.

Mr. Simmons stated the prisoners at this time numbered approximately 5,500 and that the entire prison system was in an exceptionally good condition. He said the system was raising its own food and feed crops in large quantities and that "we not only intend to live at home but have been doing so for the past five months."

It was stated by Mr. Simmons that 20,000 acres had been planted in cotton but he would not make an estimate as to what the result of this crop would be. He said the fields were clean and he had never seen cotton in better condition.

"The morale of the inmates was never better," Mr. Simmons said. He attributed this condition to the fact that all of the prisoners were kept busy.

COLEMAN PIONEER DIES

COLEMAN, June 6.—(P)—Funeral services were planned at Santa Anna today for Morgan J. Stacy, 60, for whom the town of Stacy in McCulloch county was named. He died Thursday at his home in Santa Anna. He was a native of Lavaca county but had been a resident of Coleman country more than 50 years.

NEED LEGISLATION SOLVE PROBLEMS IN EAST TEXAS FIELDS

ORDERLY MARKETING IS OF VITAL INTEREST HERE SAYS R. L. WHEELOCK

Declaring proper legislation is the only solution for present conditions in the East Texas oil fields, R. L. Wheelock, prominent independent operator and former mayor of Corsicana, urged the citizenship to become alert to the situation that now exists and demand that this legislation be forthcoming without undue delay.

"This question touches the very vital interests of Corsicana since there are large numbers of our citizens with investments in the large East Texas fields," Mr. Wheelock declared in discussing the over production, low prices of oil and the general violation of the proration order now prevalent in the East Texas area.

"This condition reaches into the pocketbooks of every institution in this city, and should concern all of us," Mr. Wheelock said. "It is time to wake up and demand legislation to correct this evil of slaughter and waste that the natural resources of our state may not be dissipated in such a foolish manner," he said.

Mr. Wheelock pointed out by the proper development of the new fields would mean anywhere up to \$15,000,000 more in the pockets of Corsicana citizens. "A large number of our citizens have extensive holdings in East Texas," he said.

Continuing the discussion of the situation Mr. Wheelock said:

"According to a message sent recently by H. L. Hunt, largest independent operator in the Joiner area, to Gov. Sterling, 95 per cent of the operators in East Texas are in favor of rigid enforcement of the proration of oil runs. The majority of the present violators, Mr. Hunt said, are breaking proration through what they believe the necessity to protect their leases from drainage and for protection if enforced. Consumers of oil land and royalty holders who have thoughtfully informed themselves, favor absolutely equal and ratable taking of oil, with oil production restricted within the demand of responsible purchasers who probably will account and pay for the oil run."

"Proration is a plan for the conservative production of oil and gas which takes its name from its basic rule: a proportionate or proportional division among all producers large and small, of the market outlet of the field or field to which than can be applied. Basically it is simple enough.

Continuing in the spirit of its conception, it is the fairest plan yet devised for adjustment of supply to demand. It is favored by the oil industry as a whole, and by an overwhelming majority of individuals engaged in the industry.

"The market for oil from a given area is ascertainable from the demand for transportation. Under proration, the market determines the controlled production of the area, and this controlled production is divided among the producers in proration to the potential production of their properties. Oil is taken ratably throughout the area and the weakest producer, as well as the strongest, is protected in the enjoyment of transportation facilities.

"Open production on the other hand, allows producers possessing special advantages not only to monopolize the market outlet, but to hog the oil of their less fortunate neighbors. It is a case of each for himself, and ruin for those who cannot take care of themselves. The stronger operators, having a market are able to produce to capacity, while their weaker neighbors can neither sell their oil nor conserve it under the ground.

Would Serve All Interests.

"There is no reason why proration, carried out under the direction of state authorities, as is contemplated by Texas statutes, should not serve the true interests of all oil producers and of the public. Certainly it should be particularly attractive to the smaller producer, as putting him on a parity with the largest and strongest oil companies.

"Now that the first excitement has passed, it appears, nearly all producers in the new East Texas field are in proration. The picture stands in Mr. Hunt's message to Governor Sterling, a picture of men and companies actually forced to engage in wasteful production of oil, by fear of the drainage of their leases, is one painful to contemplate. It furnishes rather striking evidence that the new "freedom" claimed for producers by advocates of wide open production is no freedom at all, but quite the reverse. Furthermore, it is evidence of the urgent need for the strengthening of our Texas conservation laws."

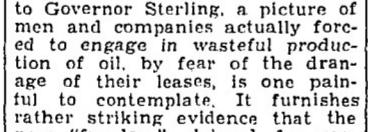

FROST GRADUATES.

FROST, June 6.—From 1922 to 1930, there were 111 students who graduated from Frost high school and seventy-seven have pursued their studies in institutions of higher learning, for a percentage of 68.4, according to Superintendent W. V. Harrison.

Frost Aspirin stops pain quickly. It does without any ill effects. Harmless to the heart; harmless to anybody. But it always brings relief. Why suffer?

BAYER ASPIRIN

No matter how severe, you can always have immediate relief:

COURTHOUSE NEWS

District Court.

The Navarro county grand jury which has been in session for a number of days recessed late Friday until Tuesday, June 16, and returned the following five indictments:

Assault with intent to murder, 2; auto theft, 1; burglary, 1; and theft, 1.

District Clerk's Office.

The following cases were filed:

James Wilhite vs. Ethel Wilhite, divorce.

Henry Douglas vs. Texas Employers' Insurance association, compensation.

Abe Holliday vs. American Surety company of New York, compensation.

Gladys Austin vs. Hollis Austin, divorce.

L. E. Hervey, district clerk.

Marriage Licenses.

George Weinschel and Elowie McKee.

Mendle Saske and Hannah Blanche Rothkopf.

George C. Gamble and Mrs. Lou L. Hairrell.

Sheriff's Deed.

Rufus Pevhouse, sheriff of Navarro county, for James Kerr, et ux, to H. C. Bartlett, 6 2/3 acres of the James Powell survey \$101.

CORSICANA GOLFERS SMOOTHERED MEXIA HERE SUNDAY AFTERNOON

**LOCAL PLAYERS
MAINTAINED LEAD
IN GOLF LEAGUE**

**CHARLEY HOLLOWAY SHOT
ROUND ONE UNDER PAR
SUNDAY**

**BY PAUL MOORE
Sun Sports Editor.**
Winning twenty-nine out of a possible thirty points Sunday afternoon, the Corsicana Club golf team smothered the Mexia entry in the Central Texas golf league over the local course, 29-0, in the most decisive victory of the current race. With this victory, the Corsicana team maintained its leadership at the top of the percentage table.

Each of the ten teams won the three points over their Mexia opponents except one. M. H. DeWitt and Ed M. Polk, Jr. of Corsicana shot birdies on the eighteenth hole to win two points over their opponents after losing the first nine holes.

John C. Calhoun and Henry Walker have played in all six tournaments, turning in victories on all six occasions, to annex the record for local players.

Following are the pairings with the Mexia players being named first and the Corsicanans second.

PAIRINGS.
V. Gartz and J. P. Kennon vs. Charley Holloway and Rip Lang; Charles Kennon and James Sinclair vs. Tom Pinkston and Dr. Fred E. Owen.

W. C. Moore and Frank Oliver vs. Frank Caldwell and C. C. Cunningham.

Jack Simmons and J. L. Cox vs. Dr. T. F. McLendon and Phil Grinnell.

E. L. Wilson and C. R. Fitch vs. Newton Burnett and J. H. Hook.

Charles Milton and W. B. Kendrick, vs. M. H. DeWitt and Ed M. Polk, Jr.

W. V. Geppert and Zollie Robells vs. Lynn Adams and A. H. Kerr.

S. N. Forrest and E. Watson vs. H. R. Stroube and Jake Hudson; Dr. Martin and A. M. Beeman vs. Henry Walker and John Calhoun.

L. H. Simpson and T. O. Meador vs. L. U. Cale and Ralph Stell.

Charles Holloway shot a 70 in the match Sunday afternoon, one under par, and it is thought that this score ties the course record as the present course is played.

J. P. Kennon of Mexia shot an eagle three on the sixteenth hole.

Major League Leaders

**Qualifying Rounds
For National Open
Start Many Courses**
NEW YORK, June 8.—(P)—An army of 1,097 golfers today was traveling 36-holes on 20 widely separated courses in an attempt to gain one of the 97 vacant places in the National open championship, to be played at the Inverness club, Toledo, O., starting July 2.

Fifty-three other players, given exemption, will go directly to Inverness to make the open's starting field exactly 150.

The Chicago district had the biggest field in the qualifying round today. There 177 players sought the 15 places allotted that district. On the other side of the picture was the Seattle district where Harold Niemeyer of Seattle, the only contender for the one place allotted to that district, automatically qualified.

The exempt list includes 31 players who finished in the first 30 and ties in the open at Interlachen last year. Actually there were 34 in this category but Bobby Jones, the champion, Craig Wood and Johnny Goodman have not entered the 1931 titular chase.

Southwest Golfers Play
DALLAS, June 8.—(A)—Thirty-three Southwest golfers will be matched in the Brook Hollow Country Club here today for three qualifying places in the national open at Toledo in July.

Only one of the three men who qualified from this district last year was in the field today. He is Francis Scheider, Brook Hollow professional. Ray Mangrum and Ralph Guldahl, who qualified from this district last year, are entered in different districts this year. The qualifying test was set for the 36-hole route.

**Maxie Rosenbloom
Meets Tony Cancela**

CHICAGO, June 8.—(P)—Maxie Rosenbloom, whose light heavyweight title was vacated by the National Boxing association Saturday, has been signed to meet Tony Cancela of Tampa, Fla., in one of the 10-rounders on the Mills Stadium card Thursday night.

The bout will replace the Jackie Fields-Ramplago Saguero engagement, which was cancelled because of an injury to Fields' right hand. Saguero will meet either Jackie Brady of Syracuse, N. Y., or Babe Joe Gans, negro 147 pounder.

and is returning to his home in Alabama. The cast has been removed, but the ankle is weak and pains him. The loss of Stewart was a hard blow to the Steers and the standing of the Mavs might be considerably higher had Stewart not been injured.

Late Model Used CARS

The ever-increasing popularity of the New Chevrolet Six has brought into our Used Car Department many slightly used, late model automobiles. These cars, traded to us on New Chevrolets are offered at exceptionally attractive prices.

Below are a few of the most desirable used cars on the market today. The original buyer has stood the depreciation, leaving thousands of miles of dependable service for the next buyer at very small cost. Just come to our showroom and select the one you want. Our prices are right.

MODEL A FORD—Pickup with closed cab. Tires all good. This car driven only 11,000 miles. This is an unusual opportunity for some one to get a late model little truck at such wonderful saving.

1929 CHEVROLET SIX 4-Door Sedan in perfect shape in every way. Motor, tires, top, body and upholstery—all like new.

1929 CHEVROLET SIX TOURING CAR in rare condition. A bargain for someone.

1929 PONTIAC COACH driven only 15,000 miles. Looks like new. This car is in wonderful shape and can be bought right.

1929 CHEVROLET COACH in perfect shape with new tires and motor overhauled throughout. Body, top and upholstery like new.

1929 FORD MODEL A STANDARD COUPE in excellent shape. A real buy for some one.

1929 FORD MODEL A SPORT COUPE in excellent condition and appearance—Offered at a bargain.

1930 CHEVROLET SIX COACH—Motor perfect, body, upholstery, top, etc., like new. Two new tires and two of original tires still in use.

1930 PONTIAC COACH in perfect shape. Smooth body, top, upholstery, tires all good. Motor OK.

1930 FORD MODEL A STANDARD COUPE in excellent shape. A real buy for some one.

1930 CHEVROLET COACH in perfect shape with new tires and motor overhauled throughout. Body, top and upholstery like new.

We have the car you want and our prices are right.

**High School Stars
Will Attend Annual
Track-Field Meet**

CHICAGO, June 8.—(P)—Chicago again will be the track and field capitol of the United States Friday and Saturday when high school and prep stars from all sections come to Stagg Field for the twenty-seventh annual University of Chicago national interscholastic championships.

On the site field where Southern California's great aggregation meets its opposition with 11 1/2 points last Saturday, youthful aces from 120 high schools, representing 21 states, will battle for national honors.

The entry list includes teams from Texas.

CARDS SIGN COLLEGE PLAYER
CHAMPAIGN, Ill., June 8.—(P)—Bill Fuzak, left fielder on the University of Illinois baseball team, champions of the Western conference, has signed a contract with the St. Louis Cardinals. He hit .487 in ten conference games, eight of which Illinois won.

Ice Cream Supper
Benefit of Epworth League at Eleventh Avenue Methodist church on Tuesday night, June 9th. Everybody invited.

SIX TEAMS SPLIT BARGAIN BILLS ON SABBATH SESSION

BOCKEY KOCK LOOKS GOOD IN FIRST APPEARANCE WITH SPUDDERS

BY BILL PARKER
(Associated Press Sports Writer)

Sunday, a day of eight games instead of the usual four because of doubleheaders, failed to change the Texas league pennant calendar. It was a day of fifty-fifty with all clubs except San Antonio, the Indians taking doubleheader from Galveston.

Beaumont stayed at the league pinnacle with a 3 to 2 victory over the Indians in the first game which ended for a 4 to 3 affair in the nightcap. Vaughn pitched another one of this super games to tame the Buffaloes in the opener.

The Exporters almost won the second game—but just almost, for the Buffaloes pulled a seventh inning rally to nose in front, 4 to 3.

At Fort Worth, the best Art Phelps' Cats could give the Jake Dally's Exporters Sports was a split. With Dick Whitworth five back in winning form after three consecutive defeats, the cats stalled home in the first game, 8 to 1. In the second game, Fort Worth pulled away for a 4 to 2 lead at the end of the third inning, but two runs in the first of the sixth and three more in the seventh gave the Sports a 7 to 6 decision.

Indians Draw Crowds.

An estimated crowd of 3,500 turned out at San Antonio to greet the Indians on their return home, and just to prove they appreciated the reception, Claude Robertsons boys wallop the Galveston Buccaneers, 2 to 0 and 5 to 3.

The Galveston club played two listless games of baseball while the Indians had a lot of sparkle to their fielding and made hits mean runs, especially in the first game when the Indians got only four hits off of Harris.

Wichita Falls retained its fourth place Sunday at Dallas by splitting with the Steers. Lefty Minogue, southpaw ace of the Dallas mound staff, toiled the first game and stopped the Spudders, 8 to 4. The first game saw the Spudders unfeel one of the most miserable fielding games yet recorded in the Texas league. They committed eight errors behind the fine pitching of Ash Hillin, and almost every miscue cost at least one run.

Lee Meadows pitched and lost the second game for Dallas, 7 to 0. Lee received erratic support and was hit hard. Fressnel hurried, and Boeby Koch, football star of the Baylor University Bears last season, caught the second game for Wichita and looked good.

MANY CORSICANA BOYS REGISTERED TO LEARN TO SWIM

About 45 boys registered Monday morning for the third annual Sun-Y. M. C. A. free swimming school, and were given their first lesson in the Y. pool by Instructor C. F. Broughton, physical director. The lessons will continue throughout this week, and Saturday morning tests will be given those having completed the work.

The Daily Sun-Y. M. C. A. swimming school has been popular in its two years of existence, about 150 boys and men having learned to swim under the instruction of Physical Director Broughton.

The following instructions in the elementary principles of swimming were prepared for publication by the Instructor Monday, beginning on the second of "Learning to Swim in Six Lessons."

Lesson One—Bobbing.

Swimming is a beneficial exercise. It might be said that swimming is a sugar-coated pill because of the unseen qualities of much value. First, swimming brings into play all of the muscles of the body. Second, swimming creates a healthy, deep breathing. Third, swimming develops the body more uniformly than any other exercise. Fourth and last, swimming is as enjoyable a sport as one can take part in because of the social contact gained when in the water with a crowd or with a friend.

The first step in learning to swim is mastering fear and subduing the tendency of a superiority complex. This step is called bobbing. Bobbing is accomplished by going up and down in the water, submerging each time. Breathing is one of the chief factors of swimming correctly. It is touched upon here. That is to say, the subject is warned about breathing, because it breathes because of the inability of strangling is done through the nose.

Along with bobbing, another step to defeat fear is demonstrating that a body will float when in the water. The subject is then instructed to stand the knees up to the chest clasping the hands around the knees and falling forward opening the eyes. When this has been tried the subject will then see that he can float, then fear has been defeated.

Since the subject sees he can float, the eyes are the next thing to test out. When the subject head down in the water, the eyes are to be closed. At first, the water may fill the eyes but after a few minutes the eyes will be accustomed to the water.

Thirty to 45 minutes on the first lesson is sufficient time for practice. The subject is then assigned to the second chapter of the swimming course. That lesson is entitled "The Dead Man's Float."

Terracing School Location Changed; Be Held at Frost

Site of the mid-summer terracing school has changed from Blooming Grove to Frost and will be held on June 17 on the Mrs. S. J. Mitchell farm about a mile north of Frost. The terracing specialists will assist County Agent Calvin Pigg at the school including Mr. R. Bentley of the extension service of Texas A. & M. College, and A. K. (Dad) Short of the Federal Land Bank of Houston.

Finals will be held Sunday, Bruce Barnes, University of Texas star and 1930 singles champion will not defend his title. More than a hundred players are registered in the four divisions of the tournament.

CORSICANA, TEX., JUNE 9, 1931.

IN A HURRY.

A traffic observer who is an observer of human nature remarks that it is the "hurry bug" that causes most of the accidents. He thinks it is almost as definite a thing as the hookworm, which makes people unnaturally and insufferably slow. It simply works in the opposite way, developing a mania for speed.

The victims of this mania imagine they have to be always going at maximum velocity. They try to keep up their speed regardless of obstacles, laws or other people's rights. So they are always getting smashed up or smashing up somebody else. And what does it get them, even if they escape violent damage? In plowing across town at break-neck speed they may save, if they are lucky, say 10 minutes. What do they do with the 10 minutes?

They waste it, in all probability, smoking or chattering, to relieve the strain. Or else they plunge just as feverishly into their work, and waste the time saved, and more, by nervous and unwise action.

It is all right to be in a hurry, but all wrong to have one's mind in a hurry. The biggest and most successful men, the men who get the most done, are nearly always men who do not let themselves get hurried, and who therefore see clearly and act calmly and make no mistakes.

ONE SYLLABLE WORDS.

The Editorial Digest, Houston, takes a flag at the one syllable word endurance contest now going the newspaper rounds, as follows:

Authorities agree that the short and simple word is always better. But it is not easy to find a short and simple word for every purpose, and just because of that fact, Texas is now plunged into a sort of one-syllable word endurance contest. M. E. Foster of the Houston Press, started it. He wrote a masterpiece, and it contained not a word of more than one syllable.

Just by way of trying our hand at the new pastime: Plain words have strength and grace. They leave no doubt as to what is meant; they have the force of bolts that strike from clear skies; they ring true. God used and loved them: He it was who said: "Go thy way and sin no more."

They may not be smart, but short words are strong words. In times of great stress, man is prone to turn to them. They are all he needs to tell his foe to "Go to hell," all he needs to swear his true love to the girl of his dreams.

With but short words to serve him he can take his girl for long rides in the light of the stars; he can park his Ford at a spot on the beach where a bright moon throws its white light on the waves of the sea; he can drive with one arm, and drive well. With but plain, short words he can sing to her, dance with her, dine her, and drink to the light that lies in her eyes. Then, some night when the boom of the surf beats a soft bass for the song that floats through the tops of the trees, he can ask her, "Could you learn to love me, as I love you?" By all the rules of the game, this is her cue to burn him up with that age-old word of doom that sounds like "y-e-s." Thus their troth is pledged, and the poor boy is signed up for life. They go to the church, meet the priest, say a short word or two, are wed.

But what if she says "no," you ask? Well, in the chimes.

JUST FOLKS

DAVID BELASCO.
Tis strange that I should miss him so
Who never shook his hand,
A friend I was not given to know,
Or come to understand.
Never at his table sat
To talk of play and star.
His was a gentle genius
I looked on from afar.

And now for him the curtain's down—
The play called "Life" is over.
And where he fashioned his reknowned
Belasco works no more.
Never again with magic touch
And insight sure and keen;
With little things which meant so much
His hand will deck the scene.

Some say we cannot mourn as friend
For one we never knew,
But for our joys we all depend
On something other do,
And who with genius gives to me
An added hour of cheer
Although his face I may not see,
Is one whom I rever.

What if it was his work alone
To which my love I gave,
For that my little flower is thrown
With thousands on his grave.
Deep draughts of joy from him I drew.

Which never more can be,
And so, although he never knew,
He was a friend to me.
Copyright, 1931, Edgar A. Guest.

ALL QUIET ON RIO GRANDE.

In the proposed abandonment of Forts D. A. Russell and Brown and Camps Stephen D. Little and Harry J. Jones "because they are obsolete and no longer of strategic value" lies, possibly, the most significant fact in the plan to pare the Army budget.

All four forts are on the Mexican border. For years following the Madero revolution, Ft. Russell, then Camp Marfa, was a center of border patrol activity.

Ojinaga, directly south of Marfa, was a pawn passed from one revolution to another. Bandit raids into the Big Bend cattle country were of almost daily occurrence. Ft. Brown, another far-flung out-post of the First Cavalry Division guarded the lower Rio Grande. Camp Little and Camp Jones were created soon after Villa's raid on Columbus, and maintained because of the constant menace of guerilla warfare in troubled Sonora.

In the passing of these four posts is a gratifying recognition of the fact that Mexico is at last possessed of a government competent to police its own frontiers and solve its own problems.

Forts Bliss, Huachuca and Sam Houston remain, reminding us that we have not yet achieved an unguarded border-line to the south as to the north, but at least an encouraging step has been taken toward the accomplishment of that fact.

The summer school is by birth an American institution, though the idea of offering educational advantages during the vacation period, originated here some fifty years ago, now has spread over the world, and 118 European colleges in fourteen countries now conduct summer classes. Its function is to enable those who have fallen behind in their studies to catch up, to enable those who are receiving a general education to specialize, to broaden the knowledge obtained in regular courses, and to open the doors of opportunity to others to whom educational advantages have been denied.

Rapid growth of attendance shows increasing appreciation of the privileges conferred. In the summer schools of higher learning the courses of five to twelve weeks rate as equivalent to one-sixth to one-third of a college year in credit value. The existence of these institutions would be justified were their benefits limited to teachers alone in enabling them to keep abreast of the times and supplement their qualifying education.

FLOURISHING SUMMER SCHOOLS.

Summer school attendance in the United States this year is expected by the federal office of education to surpass 775,000, and may reach a million, including 350,000 enrolled in summer courses of elementary, junior high and high schools and the remainder in 640 college and university schools throughout the country.

The summer school is by

origin an American institution, though the idea of offering educational advantages during the vacation period, originated here some fifty years ago, now has spread over the world, and 118 European colleges in fourteen countries now conduct summer classes. Its function is to enable those who have fallen behind in their studies to catch up, to enable those who are receiving a general education to specialize, to broaden the knowledge obtained in regular courses, and to open the doors of opportunity to others to whom educational advantages have been denied.

Rapid growth of attendance shows increasing appreciation of the privileges conferred. In the summer schools of higher learning the courses of five to twelve weeks rate as equivalent to one-sixth to one-third of a college year in credit value. The existence of these institutions would be justified were their benefits limited to teachers alone in enabling them to keep abreast of the times and supplement their qualifying education.

SOMETHING FOR THE FARMER TO CONSIDER.

It is estimated that at present there is some 300,000 pounds of quality dairy butter now in storage.

Quite, 52,500 feet is short of 52,000 or 52,500,000 miles. Ten miles does not take us out of the earth's atmosphere, but into a thinner layer of air which is just getting into the dictionaries under the name, "stratosphere." But Professor Picard and his aid, Charles Kipfer, have made a beginning.

In a cubical basket strung from a balloon, the former of aluminum and the latter a monster in size and gas content, they soared miles above the air dense enough to feed human lungs naturally. Shut into the aluminum cube, they went up there (or is it down?) and lived; they "navigated" a far off ocean otherwise called the "isothermal layer" and lived; and from those thin fastnesses and the cold they sank to a glacier in the Alps, and lived.

It looks as if the solution to the dairy phase of the farm problem is largely a matter for the farmer himself to solve through his own dinner table.

Still, even those who rise above the common level can remain on the level.

TIMES ARE CHANGING.

"At the bottom of the present distress of the oil industry is a fundamental conflict between economic and statute law," says Western Business. Statute law holds it to be against public policy for producers to agree among themselves to limit production. Economic law makes it imperative that they should so agree. If they do not oil is over-produced and wasted to-day. . . .

"In this conflict the oil industry is not seeking to put itself above the law and defy the government. It has

for years been trying to discover the middle ground between unlimited competition (with its attendant overproduction) and unified control (which would force production down to the level of demand). But no attempted compromise has achieved anything like effective success.

"This is not simply a question involving oil, vital as it is to the whole petroleum industry. It involves the whole relationship of government to business. Business performance in the present; it cuts the cloth of its action to the pattern of actual conditions.

Government must free itself from the dead hand of outworn social and political concepts; it must not expect to apply the rules of 1890 to the facts of 1931. The times are changing with unprecedented swiftness."

INTO THE AIR.

Voyages beyond the earth's atmospheric envelope! To the moon! To Mars, Venus, Neptune, or, even, to the remote new planet, Pluto! Out where our travels thus far have been conducted chiefly by the authors of novels or by artists who draw on their imaginations.

Quite, 52,500 feet is short of 52,000 or 52,500,000 miles. Ten miles does not take us out of the earth's atmosphere, but into a thinner layer of air which is just getting into the dictionaries under the name, "stratosphere." But Professor Picard and his aid, Charles Kipfer, have made a beginning.

In a cubical basket strung from a balloon, the former of aluminum and the latter a monster in size and gas content, they soared miles above the air dense enough to feed human lungs naturally. Shut into the aluminum cube, they went up there (or is it down?) and lived; they "navigated" a far off ocean otherwise called the "isothermal layer" and lived; and from those thin fastnesses and the cold they sank to a glacier in the Alps, and lived.

It looks as if the solution to the dairy phase of the farm problem is largely a matter for the farmer himself to solve through his own dinner table.

Still, even those who rise above the common level can remain on the level.

We seem to see the men in

CONNECTICUT SETS AN EXAMPLE.**DO-X MAKES TRIP FROM CAPE VERDES TO BRAZIL EASILY****FLIGHT OF NEARLY FIFTEEN HUNDRED MILES IN TWELVE AND HALF HOURS**

NATAL Brazil, June 5.—(P)—A girl and her uncle were slain by Clyde Clemens, father of five children, who shot and killed himself today. The two killed were Miss Grace DeWitt, 19, and Gordon DeWitt, 55.

Clemens, members of the DeWitt family said, broke into the house in the early hours and opened fire on the DeWitt family.

Mrs. DeWitt, widow of the slain man, escaped by jumping from a second-story window. Her shoulder was fractured.

Relatives said that Clemens who was 45, had indicated affection for Grace DeWitt.

Man Kills Self After Slaying of Girl and Uncle

ROUND LAKE, N. Y., June 5.—(P)—A girl and her uncle were slain by Clyde Clemens, father of five children, who shot and killed himself today. The two killed were Miss Grace DeWitt, 19, and Gordon DeWitt, 55.

Clemens, members of the DeWitt family said, broke into the house in the early hours and opened fire on the DeWitt family.

Mrs. DeWitt, widow of the slain man, escaped by jumping from a second-story window.

Relatives said that Clemens who was 45, had indicated affection for Grace DeWitt.

The jury found the two officials of the bank, which failed January 31, 1930, guilty on six counts. They were tried on charges of misappropriation of funds, making false entries in the bank's books and falsification of reports to the comptroller of the currency on the condition of the bank.

Federal Judge William Shepard will pass sentence upon Smallwood and Johnson Monday, after which the defense will have notice of appeal. Henry Zweifel of defense counsel, said.

The case was given to the jury yesterday afternoon.

Judge Shepard, ruling on a plea of former jeopardy for A. L. Baker, co-defendant, who appeared as a witness for the government, decided a plea of guilty in February to similar charge had precluded further prosecution of that defendant. He instructed the jury yesterday afternoon.

WANTS LEGISLATION FOR BENEFIT TEXAS FARMER SUBMITTED

A. A. ALLISON WOULD HAVE COTTON LEGISLATION INCLUDED IN CALL

The following open letter to Commissioner of Agriculture J. E. McDonald has been given out by A. A. Allison, large landowner and agriculturist of Navarro county, urging that the cotton crisis in Texas be made a part of the call for a special session of the legislature urged upon Governor Sterling for oil conservation legislation:

Corsicana, Texas, June 7, 1931.
Hon. J. E. McDonald,
Commissioner of Agriculture,

Austin, Texas.

My Dear Sir: All the various elements hitherto of divergent opinions respecting production of oil are now getting together on conservation, proration and effective means of securing these essentials to the industry's life, and this agitation is burning home the thought of conservation of the natural resources of the state being consumed and wasted through excessive consumption and the consequent waste attending cotton growing. Discussion of the wastes of oil always ends with admission that excessive cotton production and its losses stand out beside these faults in oil like a mountain beside a molehill.

Whereas, there must be one percent of our people interested in the production and proceeds of oil, there are fifty to seventy-five per cent interested in production of cotton.

Production of oil attracts the hordes of impatient and the conservative; the speculator and the investor; the humble and the haughty; their din and clamor consume both press and platform; while the production of cotton consumes the enduring toll and sweat of the hundreds of thousands if not the millions of our people, meekly and patiently bearing ground to death in both their substance and morale, unorganized and unheeded, while all the elements of society and official life are aroused to the necessity of tilling heaven and earth to save oil.

Cannot something be said to the governor, something done, that will show him cotton's merit, its pitiful plight, so that he may include this subject in his call for an extra session to save oil? Cannot you arouse different sections of the state to action instantly to create the demand upon him?

There never was so propitious a time, so promising outlook for results. I pray you heartiest cooperation from this county in such a movement.

Yours very truly,

A. A. ALLISON.

SHOOTING FOLLOWS FEUD OVER USE OF TWO-FAMILY BATH

TULSA, June 8.—(P)—Charles Wilson, 42, was in a hospital to stay with three bullet wounds as the result of a fued over the use of a bathroom in a two-family house.

The trouble started a month ago when S. M. Damf, 42, moved into the house which Wilson had occupied. As the bath was located in the side of the house occupied by Wilson, he ordered Damf not to use it. Both men, employed at a nearby industrial plant, went to work early, and Wilson complained that after Damf moved in, he never had hot water for shaving.

Damf continued using the bathroom, and Wilson's wrath grew. Finally he obtained heavy timbers and nailed up the bathroom door to prevent Damf from entering. The next morning, Damf pointed on the timbered door, and the situation had been reversed. The timbers were gone, and Damf was splashing away at his bath.

Bidding his time, Wilson succeeded on Saturday in nailing again the door. When Damf discovered this, according to the story told police, he got his gun and began firing through the barricaded door.

Last night the final chapter was written. While the Wilson's were at a church, Damf nailed Wilson's door. When Wilson tried to enter the bathroom, the door held firm. He got his gun and fired four times. Damf returned the fire. Three of the four shots hit Wilson.

Summer has arrived in Corsicana in earnest and with it comes the Mineral Plunge at South Twelfth and Tenth avenue has been opened to those inclined to seek the waters for their summer recreation. The opening was delayed some time due to a broken pump that sends the stream of pure artesian water into the big oval concrete pool. This pump was repaired and on Sunday the pool had been sufficiently filled to attract many and on Sunday additional crowds "went in."

The big pool is expected to draw crowds during the entire summer season from Corsicana and surrounding territory, as there are few pools in cities the size of Corsicana that can compare with the one here and there is no better bathing water in the state. In fact the health-giving features of the Corsicana mineral water are known far and wide.

Mr. and Mrs. R. R. Neese and Mr. and Mrs. Paul Moore were Dallas visitors Saturday.

Mr. and Mrs. Dave Crowther motored to Denton Sunday to take their daughter, Miss Katherine Crowther and Miss Marie Stamps, who are taking special courses in the North Texas Teachers College this summer.

Mr. and Mrs. A. E. Chambers of Fort Worth spent Saturday night and Sunday here visiting relatives. They were accompanied here by Mrs. Alice Roberts and Miss Gladys Sprowl. Miss Sprowl will remain here some time for a visit with relatives.

Mrs. M. E. Smith accompanied Mr. and Mrs. Chambers home Sunday afternoon.

Harmon Chandler of Eureka was in Corsicana Saturday.

Horace McDonald and D. C. Kelly, deputy sheriff, have returned from a fishing trip to the cut-off Trinity river northeast of Ennis. They reported sighting a wildcat near their camp.

Mr. and Mrs. R. R. Neese and family left Saturday for Sherman where they will make their future home. Mr. Neese will continue to be connected with the American National Insurance company.

Mrs. J. H. Lynn is leaving Sunday for East Texas, to join her husband for the summer. They will take a pleasure trip soon to San Antonio, Corpus Christi and the points south.

Groesbeck Girl's Wedding Months Ago Announced Recently

Mrs. Olive Bowen of Ennis, director manager of the Woodmen Circle, came down Sunday to assist the local circle Violet Grove No. 49 in the unveiling of the monument erected to the memory of Mrs. Nannie Huitt. Mrs. Bowen was master of ceremonies and a very impressive program was given and witnessed by a large crowd.

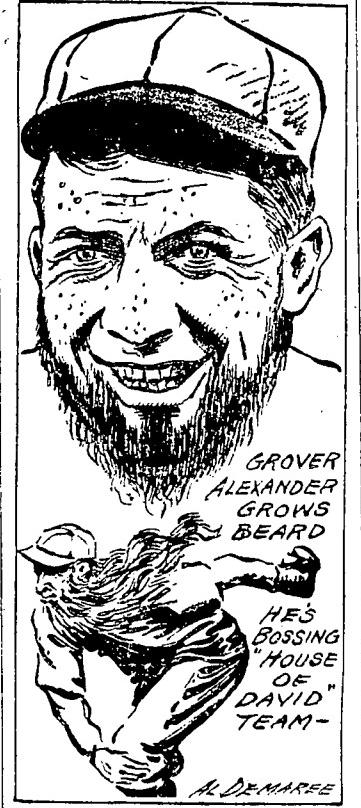

Rev. R. A. Crosby, pastor of the Eleventh Avenue Methodist church made a short talk and a quartet from the church composed of Mr. and Mrs. Norman Harding, Mrs. George Ferrell and Mr. L. K. Carraway sang appropriate songs.

The team dressed in white with Mrs. Nola Elkins as captain made an impressive picture in their ceremony on this occasion.

The Circle received numerous compliments on the ceremony.

Beards Suffer in Growth of Times

CHURCH BUILDING HALTED BY POPE THROUGHOUT ITALY

VATICAN MAKES COUNTER MOVE TO MUSSOLINI'S OFFENSIVE

ROME, June 8.—(P)—Suspension of church construction throughout Italy was understood today to be the Vatican's latest counter move in the controversy with Premier Mussolini.

The expenditure of many millions in the erection of nearly 2,000 buildings in Vatican City and other districts was said to have been ordered from Pope Pius. Construction already under way will be completed but possibly in abbreviated form.

This move was considered significant inasmuch as the building of new religious edifices is known to be close to the pontiff's heart. He recently discussed his program with Cardinal Mundelein of Chicago, telling him that building was one of the best remedies for unemployment in the Catholic world.

On the other hand the Vatican has announced that the reorganization of Catholic youth clubs, the closing of which was the root of the disaffection, is going forward in the form of "congregations," while their locations were withheld, it was learned that they were being formed in strict adherence to fascist law and would be more closely related to the church than the former groups.

A spirit of optimism pervaded the Vatican in regard to the solution of the conflict with the government although no concrete developments were known to have taken place. The Pope spent all Sunday in conference with his departmental heads and they in turn discussed the situation at length.

It was believed possible that the government might have secretly the papal notes of protest concerning the dissolution of the Catholic Action Society and attacks by fascist adherents. Both sides were represented as hoping for a truce which would eventually lead to a satisfactory settlement of the matters in dispute.

Persons in a position to know said today that the diplomats negotiating informally are trying to patch up a temporary truce rather than a permanent settlement of differences between the church and the state to permit of a quick solution.

Behind the dissolution of the clubs is the whole issue of the education of youth. This was supposed to have been settled by the Vatican-Italian concordat, but disagreement arose soon after that concordat was signed.

Before that all ball players ran to hirsute adornment. Wilbert Robinson, the Brooklyn manager (in those days with Baltimore) effected the handle bar type of mustache. Bobby Lowe, Boston infielder, who once hit four home runs and a double in one game, had a particularly luxuriant, curling mustache. The lively ball and Judge Landis must be contributing causes for the present smooth shaven player.

NAVARRO COUNTY NOT PENSIONING WIDOWS THIS TIME

NEW ORLEANS, June 8.—(P)—A man, who gave the names of Thomas Carson and Frank Casey of El Paso, Texas, was shot down today by a state pensioner after he had robbed the conductor and attempted to rob the driver of a motor car. He later disclosed he was Trim E. Winby, 21, of Coldwater, Miss., and a student at a local university.

Walking out of the shadows, the man held up Motorman Robert Glass and Conductor Perry Curtis and, after taking \$875 from the conductor, made them wait in the empty street car until the bus came along.

As the man entered the bus and demanded money from the driver, Motorman Glass shot him in the back. The bullet entered his spine, and he was believed dying at the hospital.

MINERAL PLUNGE OPENS FOR SEASON AS SUMMER ARRIVES

J. E. Atkins of Purdon was a visitor in Corsicana Monday.

Miss Joyce Almond, well-known Dallas singer and musician, and Ever Conner, spent Sunday in the home of Mr. and Mrs. William Conner. Miss Almond was a winner in a contest of singing several years ago sponsored by the Atwater-Kent corporation.

Mr. and Mrs. Robt. E. Layton and Mrs. Paul Moore were Dallas visitors Saturday.

PERSONAL

Going Afieid.

A series of 15 shorts, all in color and sound, is to be filmed in India and other oriental countries. Even in the feature field there is the prospect, for certain players, of adventurous trips abroad.

"The Bird of Paradise" company is going to Hawaii for authentic settings, and Richard Dix and Irene Dunne will go to Spain for "Mimeta." A troupe returned recently from Honolulu, where "Charlie Chan Carries On," was made.

Mr. and Mrs. A. E. Chambers of Fort Worth spent Saturday night and Sunday here visiting relatives.

CHAMBER COMMERCE EXECUTIVES MEET HOUSTON MONDAY

LIBERALIZATION OF ANTI-TRUST LAWS IS SOUGHT BY TRADE GROUP

HOUSTON, June 8.—(P)—The Texas Commercial Executives association and the Texas Trade association executives met here today in annual convention.

The Trade association executives, through their president, B. Frank Johnson, of Fort Worth, took action toward possible "liberalization" of the state anti-trust laws. President Johnson appointed a committee to make a study and prepare recommendations to Governor Ross S. Sterling.

Hubert M. Harrison of Longview, general manager of the East Texas Chamber of Commerce, addressing the commercial executives, touched on communism, saying it was a "damnable poison" being spread by parlor-pink and radicals.

"Particular, foreseeing Texas business men through their chambers of commerce, must combat this dangerous tendency with all the vigor they would direct against foreign invasion of our soil," Harrison said.

STATE SEEKING TO RECOVER MONEY IN ALLEGED FORGERY

Hollywood Sights & Sounds

HOLLYWOOD — Our favorite South American correspondent sends enlightenment on the reception accorded some of Hollywood's "foreign versions" of "Rio Rita," an amusingly "A." Rio Rita, one came recently with all the English dialog eliminated and Spanish voices substituted.

"Of course the players lips and the Spanish words did not always synchronize, and that was irritating enough, but the real scream came when John Boles, who has been heard in Spanish dialog as a deep-voiced baritone, would change suddenly to his own English tenor, singing in English!

The attorney general said he expected to make this test case on the liability of public officers on their bonds. "In my judgment, a bond for the faithful performance of all duties imposed by law upon public officer means what it says," he said.

Elbert Hooper, assistant attorney general, and Henry Brooks, district attorney, joined Allred in the suit.

Hooper estimated the state had lost \$500,000 in payment of false witness fee certificates during the last ten years. With a searching investigation by several state departments incomplete, three distinct cases of alleged forgery had been uncovered. Two men had committed suicide and two had been indicted.

Allred claimed Terrell should have received or required from the clerk of criminal district court Number 2 of Dallas county certified copies of the minutes of the court before approving the alleged warrant on the state treasury in payment of them. Without doing so he could not have carefully examined the certificates, Allred's petition alleged.

The attorney general said he expected to make this test case on the liability of public officers on their bonds. "In my judgment, a bond for the faithful performance of all duties imposed by law upon public officer means what it says," he said.

Hooper estimated the state had lost \$500,000 in payment of false witness fee certificates during the last ten years. With a searching investigation by several state departments incomplete, three distinct cases of alleged forgery had been uncovered. Two men had committed suicide and two had been indicted.

Even this conscientious method has not produced particularly gratifying results, as foreign audiences seem to prefer American stars.

But foreign versions still can be made cheaply enough to justify their production. For instance, Herbert Brenon's "The Next Chapter" will come at a cost of \$500,000 in English. For \$50,000 more, in nine days Henri de la Falaise made a French version with a French cast, but the same sets.

Going Afieid.

A series of 15 shorts, all in color and sound, is to be filmed in India and other oriental countries. Even in the feature field there is the prospect, for certain players, of adventurous trips abroad.

"The Bird of Paradise" company is going to Hawaii for authentic settings, and Richard Dix and Irene Dunne will go to Spain for "Mimeta." A troupe returned recently from Honolulu, where "Charlie Chan Carries On," was made.

And another company, leaving for the Orient about the same time, came home with little usable film made. About 500 foot of what was taken on the distant location will be incorporated into a studio product to be known as "The White Captive."

Mrs. Childs was reared here and was the daughter of a pioneer, Mrs. L. H. McDonough. Her husband went to the East Texas oil fields several months ago, his wife going to Austin in search of employment.

Justice Frank Tannenhill, who conducted the inquiry, refused to open the letters addressed to him.

Letters to the four, addressed and sealed, were found in the woman's room where she was discovered in a dying condition. The woman's last known request: "Please mail these letters just as they are," a dime for postage was nearby.

BEAUTY CHATS

By EDNA KENT FORBES

All requests for beauty information desired by Edna Kent Forbes' column followers must be accompanied by a fully self-addressed, stamped envelope (a.s.e.) and two cents in stamps to cover cost of printing and handling.

For the illustrated pamphlet, "BEAUTY," ten cents in stamps with a.s.e. must be enclosed. Address Miss Forbes in care of this paper.

A PRETTY CHIN

Any woman who lets her chin become ugly deserves all the harsh things her most catty friends may say about her. There is no excuse for a double chin, ever, and no excuse for a sagging chin line anywhere on the young side of 55. The way to keep a chin young is quite simple and can be accomplished by the treatment I am giving today.

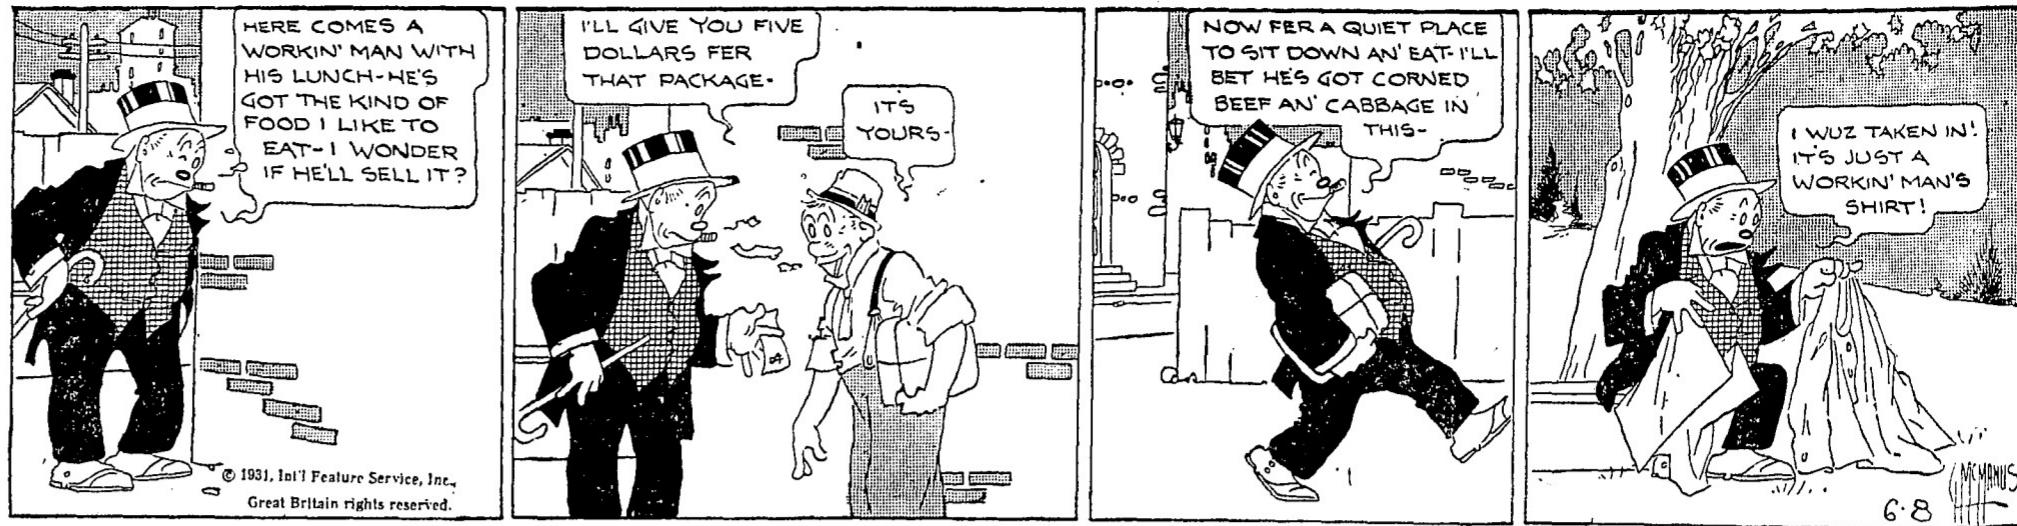

We will assume you have a nicely nice chin, and that you don't wish to let and spoil it. The treatment in this case is simply a twice a week massage with cold cream followed by approximately five minutes ice rub. In this case the cold cream simply counterbalances the drying effects of the ice.

Should the chin show signs of age, use this treatment, but add to it a quick massage afterward with astringent, nourishing cold cream. The ice will tighten the muscles, but may leave a slight creepiness where the chin line and the throat join. This is prevented by the astringent cold cream. The same treatment is very good for a double chin, only in this case you should hold hot, wet cloths over the chin, then use the ice for quite ten minutes directly on the skin and follow this with the astringent cold cream. If you have a double chin strapping it up with rubber against the skin is very good for this causes the skin to perspire and helps throw off undesirable flesh.

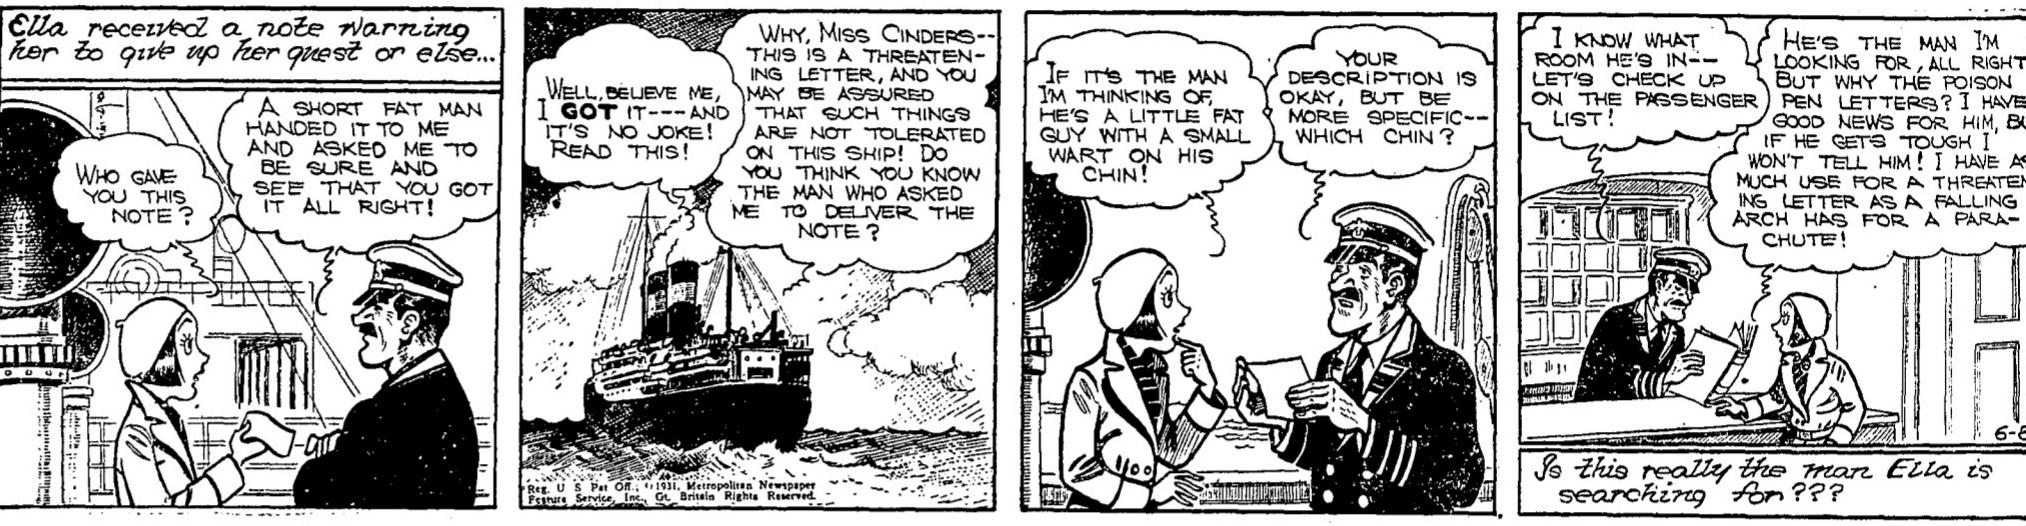

If you strap up the chin for a sagging chin line you can use simpler methods. You can wrap strips of old muslin around one of the inexpensive chin straps made of washable material, or you can make a chin strap yourself by fitting a piece of material to go under the chin and up each side of the face as far as the ears, finishing with a broad tight strap of elastic to go over the head. If you are in doubt as to how these things are made, look at them in the shops where they sell them.

NOW SHOWING—“Laughing With Tears in His Eyes” TOMORROW—“Interrupted Misery”

STOCKS DRAGGED SLOWLY DOWNWARD MONDAY OPENING

LOSSES LATER REDUCED IN QUIET ADVANCE FROM THE LOW LEVELS

NEW YORK, June 8.—(P)—Stocks turned strong today after a resumption of selling in the rails during the earlier hours had spread into other major groups. Rail issues, however, continued to lead, as the market rally, New York Central, which had sold 3 5-8 lower, advanced 2 points net. American Can, American Telephone, Consolidated Gas and Case rose about 3 and U. S. Steel, after dropping 2 5-8, gained nearly 2 points net. Oils were strong. Standards of California and New Jersey moved up 2 or 3 points. The market of trading contracted, sales aggregating less than 2,000,000 shares.

NEW YORK, June 8.—(P)—Stocks dragged slowly downward in the earlier trading today and then reduced their losses in a quiet advance from the low levels.

Weakness of the rails stood out during the selling movement which represented a continuation of last Saturday's downward trend. Atchison dropped 4 3-4 but got back 2 points of its drop. New York Central recovered part of a 3 1-4 point drop. Pennsylvania sagged a couple of points on the report of a first quarter net loss, news that influenced the entire rail group.

American Telephone, after sagging 3 points, cut its loss to 1. United States Steel reacted 3 5-8 before rallying.

Standard Oil of California held a rise of 1 1-2. Call money renewed at 1 12 per cent.

COURT DECISION CHANGES RURAL HI SCHOOL TUITION LAW

OUTLINE OF CHANGES MADE NECESSARY IS GIVEN BY STATE SUPERINTENDENT

S. M. N. Marrs, state superintendent of schools, has the following to say in reference to a recent decision of the Texas supreme court in connection with the administration of rural high school tuition.

"The recent decision of the supreme court in the case of Nicola Camp et al v Dallas City Schools, known as the Love high school tuition case, materially affects the administration of the rural high school tuition law.

"The court holds that no one can receive the benefits of free high school tuition unless he has been enumerated on the scholastic census and is subject to be transferred. It will be necessary, therefore, to exclude from the benefits of this law the following classes of students:

"1. Scholastics who reside in the rural school district but who were omitted from the scholastic census in March.

"2. Scholastics who are of high school grade who have become residents of a non-rural non-high school district after the taking of the census, unless such pupils have been enumerated within the county or in an adjoining district of a contiguous county and have been transferred to the district of their new residence.

"3. Pupils over 17 years of age. These pupils are not subject to transfer and are not allowed to attend school, even in their home district, without the payment of tuition.

"4. Pupils enumerated in one county who desire to attend high school in another county, unless the high school student resides in a county line district and desires to be transferred to a contiguous high school district in the adjoining county.

This decision is based upon the theory that only such children as have been enumerated are subject to transfer and that only those who have been transferred can receive the benefits of the high school tuition law.

The state superintendent has made a much more liberal interpretation of the provisions of the high school tuition law, but his construction must now be revised to conform to the decision of the court. He has uniformly held that all pupils who were under 21 years of age and who resided in a district were entitled to attend the free school maintained by the district. This has been the interpretation of the statutes since 1913. When the high school tuition law was enacted, it naturally followed that it would be the responsibility of the district to pay their tuition if no high school was maintained in the home district. The supreme court seems to hold that the enumeration of the child and the consequent apportionment of the funds is the basis of his right to the privilege of free high school tuition and not his residence in the district. This decision places the administration of the schools in so far as the older students are concerned, on the same basis as prior to 1913, and there seems to be no practicable remedy except an amendment to the constitution."

TWO AUTOS REPORTED STOLEN ARE RECOVERED

City Officers Bruce Nutt and Dave Seaton recovered an automobile in Ennis Saturday night stolen from La Tavborough, 802 South Beaton street, Friday night. K. W. Jones reported to the police department Saturday night that his automobile had been stolen from his residence at 1414 Park avenue. The car was found by Officers Nutt and Griffin later in the evening in the 100 block on North Seventh street.

Arrested Here On Car Theft Charge

City Detectives Bruce Nutt and Marion Griffin and officers from Ellis county arrested Buck Channing in Corsicana Sunday in connection with the theft of an automobile owned by T. E. Hay of Ennis Saturday night, and the subsequent recovery of the car in Corsicana.

Channing was returned to Waxahachie to face charges of automobile theft there.

Charged With Check Swindling in City

Chief of Detectives Bruce Nutt arrested a white man Monday morning on a charge of swindling with checks. Several checks of varying denominations were in the hands of police and investigation was being continued.

Officer Nutt said that charges would be filed in county courts against the man during the day.

ARTIFICIAL PROPAGATION OF HUMAN CANCER CELLS IS DEMONSTRATED TO MEDICOS

BY HOWARD W. BLAINESLEE
(Associated Press Science Editor.)

PHILADELPHIA, June 8.—(P)—Human cancer cells seven months old, growing artificially in glass dishes at Johns Hopkins University, were shown in movies at the annual convention of the American Medical Association today.

They were grown in the Garvan research laboratory with the aid of chemical foundation funds.

The cells were taken originally from human beings. Their artificial cultivation consist in raising new colonies. They include more than dozen different varieties of cancer. So rapidly have they multiplied that had all been preserved there now would be millions of human bladders.

They have demonstrated that cancer contains also mixtures of normal cells. These normals have appeared in every case and propagate artificially along with the malignant brothers.

BAPTIST W. M. U. WILL MEET WITH STREETMAN SOON

Following is the program of the W. M. U. meeting to be held with Streetman church, Tuesday, June 23, 1931:

Song—Devotional—Navarro.

Welcome—Streetman.

Response—Blooming Grove.

The Home, God's First Earthly Institution—Rice.

Duet—Corsicana.

The twofold Benefit of Giving to the Orphans' Home—Blooming Grove.

Piano Selection—Navarro.

Reading—Rice.

Orphan's Home—Bro. J. W. Harper.

Noon.

Devotional—Providence (Navarro county).

Our Duty to Our Old Ministers—Perry Chapel.

Should the Churches Help Maintain the Ministers of the Association?—Corsicana.

Ministerial Relief for Our Young Ministers—Streetman.

Business.

Offering—Orphans' Home and Ministerial Relief.

NEW PRESBYTERIAN MINISTER PREACHED AT THIRD AVENUE

Rev. W. R. Hall, new pastor of the First Presbyterian church, preached at the Third Avenue Presbyterian church Sunday morning at 11 o'clock to a large congregation. Renovation and repair work is under way on the First Presbyterian church and the building could not be used for services Sunday.

Rev. P. Martin Baker, pastor, delivered the sermon Sunday night at the Third Avenue church. He spoke on the general assembly in Pittsburgh. Pa. Rev. Mr. Baker attended the sessions of the general assembly.

CARD OF THANKS

Words cannot express how much we thank our dear friends for their many kind words and beautiful flowers during the long illness and death of our dear husband and father. Especially do we thank the doctors and nurses who were so kind and faithful to him.

May God's richest blessings rest with each and everyone of you.

MRS. W. B. WARD
and Children

CORSICANA NAMED AS 1932 MEETING PLACE BEACH MEN

E. D. MCARVER ELECTED THIRD V-PRESIDENT TEXAS BATHING-POOL BODY

FORT WORTH, June 8.—A. D. Rogers of San Marcos was chosen Saturday afternoon to succeed R. D. Evans of Fort Worth as president of the Texas Beach and Pool association in the closing session of its one-day meeting here. Corsicana was chosen as the 1932 convention city.

The malignants in some cases show a unique type of cells division. Ordinarily cells multiply by dividing into two cells. But some of the malignants divide into three.

This points to an opportunity open to cancer cells not enjoyed by the conservative normals. It is described as resembling a prolific family, whose children differ widely in looks and character, some being anomalies capable of destroying society.

The principle objective at Johns Hopkins is to grow completely pure strains of malignant cells, and then see whether it is possible to use them to produce all types of cancer. The visiting physicians were informed that this investigation is slow work, possibly a matter of years.

Farmer Should Know His Cotton Grade Before Sale

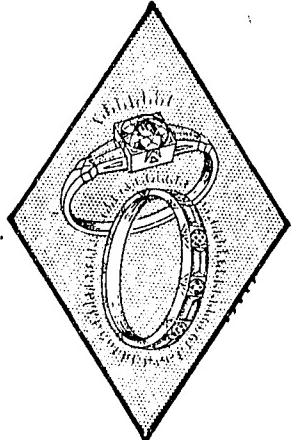

MEXIA, June 8.—(SpL)—Every cotton marketing town should have a place where the farmer could find out exactly the grade and staple of his cotton before he offers it to the cotton buyer, Lewellen Westbrook, Waco, told the Mexia Rotary Club in a Cotton Week talk Thursday at noon. Mr. Westbrook was formerly connected with the Texas Cotton Cooperative association as organizer.

"Business men should be just as concerned," Mr. Westbrook said "with furnishing the farmer a market as with selling him things. Farmers know farming better than his town friends do and doesn't need any help on that score. But he does need better markets for his diversified crops."

TWO SHOT IN ARKANSAS
TEXARKANA, Ark., June 8.—(P)—Jim Collins, 30, tenant farmer, was at a hospital here today for treatment of shotgun wounds and a Mexican farm laborer known as "Mexican John" was in a critical condition at his home near Bradley, Ark., from three revolver wounds. Officers were looking for the Mexican's son, whom they charged with shooting Collins after his father had been shot. They said they did not know the origin of the trouble.

VISIT AT DRANE
V. H. Milligan and wife of Shalrock, Okla., and daughter, Mrs. Hob Johnson and children, Konawa, Okla., returned home after a pleasant visit in the home of his sister, Mrs. Will Wallace of Drane.

Bakery Robbers Lacking in Humor But After Dough

CHICAGO, June 8.—(P)—Some people never know when to take a joke.

Three robbers, lacking a sense of humor, walked into a bakery. Twelve bakers stood before ovens, making dough. The temperature was around 90 degrees.

"Where?" asked their leader, "is the dough?"

One of the bakers pointed to a mountainous pile of dry batter on a table and said: "there."

"You must have been reading a joke book," the intruder replied, "for that, all of you follow me."

Perspiring, the bakers were led to a garage, where the temperature was low, and where they were forced to lie on a cold cement floor for two hours while two of the men searched for the money. They got \$300, overlooking \$3,000.

The secretary and treasurer will be appointed later by the new president. More than 50 persons attended the annual convention here Saturday.

Closes With Dinner

Unsuccessful bidders for the 1932 convention include Greenville, San Marcos, Mineral Wells, Beaumont, Lufkin and Galveston. The convention was brought to a close Saturday night with a dinner at Casino Park picnic grove and a program of water events at the Casino beach.

The Beach and Pool association adopted as sanitary standards

the list of regulations set forth by the American Public Health Association.

The managers, in adopting the standards, pledged that their swimming pools would be maintained so that:

(1) A continuous supply of individual chlorine is in the water;

(2) the water is clear;

(3) a silver dollar is visible from the bottom of the pool;

(4) all bathers will be required to take showers before entering the pools;

(5) swimming suits will be sterilized;

(6) pools will be equipped with scum gutters;

(7) depth of the pool at all points will be marked;

(8) side-walks will drain away from and not into the water.

GIVEN WRIST WATCH

MISS ADDIE BELLE GRIFFIN, 15-year-old daughter of R. T. Griffin, 803 South Sixteenth street, is the proud possessor of a fine wrist watch due to popularity. The watch was given by the Ton-Ko-Lah Medicine Co.

NEGRO ELECTROCUTED

BELLFONTE, Pa., June 8.—(P)—Alexander McClay Williams, 19-year-old negro, of Delaware county, was electrocuted at Rockview penitentiary today for the murder of Mrs. Vita Beatrice Robare, matron at Glen Mills reformatory school, near here, on last October 3.

Forest trails and rugged scenery

are on Secretary Hyde's mind.

He hopes to leave Washington early

in July on an inspection tour of

the national forests in the west

which will not end until some

time in August.

Secretary Wilbur's thoughts also

are turning westward. He has

made an engagement which will

take him to the coast early in

July. He also must be there in

September. He hopes to spend

the intervening time in California

at his camp in the Sierras.

Two cabinet members expect to

be in Washington most of the

summer, save for occasional week-

end and business trips. They are

Postmaster General Brown and

Secretary Doak.

Secretary Lamont and Attorney

General Mitchell have not decided

what they will do.

VACATION PLANS
